SOUND FORGE AUDIO CLEANING LAB – THE SPECIALIST TOOL FOR CLEANING & RESTORATION

The new SOUND FORGE Audio Cleaning Lab 2 is a specialized tool for easily digitizing analog recordings and cleaning and restoring audio. Fully equipped with effective tools for audio editing, the program is impressive with its technological precision and professional audio characteristics. Experience your treasured vinyl and cassette collections and recordings of music, video and digital radio recordings in outstanding hi-fi sound today.

HIGHLIGHTS

- 64-bit technology for high performance
- Best studio quality: Digitize analog audio recordings
- Over 360 presets for removing noise
- Spectral display: Visualize individual frequencies for precise restoration
- 8 audio tracks: Plenty of space for audio montages
- Tempo and pitch manipulation using a renowned zplane™ algorithm
- Audio & video converter: For converting files into all standard formats
- Video sound optimizer: Suggests the right effect settings for enhancing video sound
- Auto mastering: Suggests optimal sound settings for various music genres
- 6 professional effect plug-ins from essentialFX Suite
- VST3 interface: For seamless integration of third-party plug-ins
